## District News

From Our Correspondents

### MAYVIEW

Mrs. E. L. Plourd and Miss Clara Jacobson were Calgary visitors last weekend.

Mr. and Mrs. M. Hanson of Ched-darville were recent visitors at the home of Mr. and Mrs. G. Fulton.

Mr. and Mrs. A. Markert are receiving congratulations on the birth of a baby daughter, last Saturday, Sept. 21st. Congratulations also go to Mr. and Mrs. Ed Richardson on the birth of a baby daughter on Monday, Sept. 23rd.

Mrs. J. N. Robinson and Mr. Ralph Robinson of Calgary were Sunday visitors in the district.

Mrs. G. Fulton was a guest in Calgary at the wedding of her niece, Miss Marjorie Syngue, to Mr. William Kidner on Saturday, Sept. 14th.

Recent visitors at the home of Mr. and Mrs. A. Cutforth were Mr. and Mrs. Frank Cutforth of Barons, Mr. and Mrs. Roy Cutforth of Kamloops B.C., and N. M. Ohler of Kansas City.

Mrs. L. Coe and family were visitors last week to Cardston where they attended the wedding of Mrs. Coe's sister.

### EASTWAY

Mr. and Mrs. Meredith Shatto are of twin girls, Cheryl Ann and being congratulated upon the birth of Caryl Lynn, at the Vulcan Hospital on September 19. Both babies and Mrs. Shatto are doing well.

Word has been received that Leslie McMullen who left recently to join the U.S. Navy, has arrived in Tokyo.

Mrs. Woggy entertained last Friday in honor of her daughter, Elva's, eighth birthday. Those present were a number of her school chums.

Miss Alma Mitchell has accepted a position in the Bank of Commerce at Vulcan.

Friends will be glad to learn that Mrs. Henry McBride underwent her operation on Monday and is reported to be doing very well.

Mr. and Mrs. Howard Tharlie were business visitors at Gleichen for several days last week.

Mrs. Telsor of Vancouver is spending several weeks visiting with her son-in-law and daughter, Mr. and Mrs. Gordon Laycraft.

Mrs. Vera Stewart has returned home from the Belcher Hospital, Calgary.

### BERRYWATER

Mr. and Mrs. Archie McIntyre, of Glendale, Cal., were visitors at the Alex McIntyre and other district relatives homes last week.

Mrs. Doug Smith and family spent Sunday at the home of Mrs. Smith's mother, Mrs. Fountain, of Milo.

Miss Mary Douglass was a weekend guest of Miss Gladys Mainland.

Word has been received here that Willie Robson, Calgary, formerly of this district, is steadily improving after a long and serious illness there.

The regular meeting of Berrywater U.F.W.A. was held September 11th at the home of Mrs. Leslie Richardson. There was a good attendance of members despite the busy harvest season. The president, Mrs. W. Oldfield, was in the chair, and opened the meeting by repeating in unison the verse for September.

During the business session a discussion took place on arrangements for the annual bazaar. It was decided to hold the same on November 8th, with the place and entertainment to be decided upon at the next meeting.

A resolution was drafted to the W.T.P.T. Board requesting the rationing of lard and soap during the present shortage of these commodities. A discussion took place on the sugar rationing for transient labor and the liaison officer was to make certain inquiries along this line from the Board. A report was given by Mrs. Douglass regarding the recent resolution sent Finance Minister Halsey and Agriculture Minister Gardiner in reference to the recent Wheat Policy. At future meetings the Convener of Bulletins will be heard before the business session. This is an experiment, which is hoped will ensure more time for the discussion of these important sources of information. At the conclusion of the meeting a dainty lunch was served by the hostess assisted by Mrs. J. Gerding. The next meeting will be held at the home of Mrs. C. L. Oldfield, October 9th.

### ENGAGEMENT ANNOUNCED

Mr. and Mrs. Percy Myers wish to announce the engagement of their daughter, Eileen Leavurn, to Mr. W. Rex Caldwell. The wedding will take place at home on Sunday, October 6th.

## Many Visitors Help Celebrate Golden Wedding Anniversary

Mr. and Mrs. Dan MacRae Celebrate Fifty Years Of Married Life

"Open house" was held Sunday, September 15th, at the home of Mrs. Roy Fulton, when more than 50 friends called to offer congratulations to her parents, Mr. and Mrs. Donald (Dan) MacRae, on the occasion of their Golden Wedding anniversary, which they celebrated the following day, September 16th.

Margaret MacIntyre and Dan MacRae were married in Glengarry, County Ont. September 16th, 1896, and came to Flarcombe, Sask., in 1913, where they pioneered. For the past 15 years they have made their home with their daughters in Calgary and Vulcan. Mr. MacRae is 71 years of age, while his wife is 73. While they still enjoy the company of their friends, neither of them are robust enough to take any active part in affairs of the community.

The happy couple have four sons, Archie, Murdoch and Rueben residing at Flarcombe, Sask., and Donald at Irricana, Alberta; two daughters, Mrs. D. Fulton, Vul-daughtres, Mrs. D. Fulton, Vulcan and Mrs. D. Hamilton, Calgary. All their children, with the exception of one son, were present to help them observe their anniversary. They also have 19 grandchildren.

The reception rooms were tastefully decorated with a profusion of late summer flowers. During the day many cards and wires of congratulations were received.

Monday was spent with the members of their immediate family, when dinner was served by their two daughters. The table was centered with a decorated wedding cake, while bouquets of yellow mums and roses and tall white tapers were effectively used. A toast to the honored couple was proposed by the brother of the bride of half a century ago, Mr. David MacIntyre, in which he wished them many more years of happiness, and recalled the loving care lavished on the younger brothers and sisters of Mrs. MacRae, by her, when they were left motherless at a tender age. A singsong, in which all joined, brought to an end a most happy event. Mr. and Mrs. MacRae were presented with a radio and a purse of money by their family and also received many gifts from other relatives and friends.

Members of their family from distant points who were in attendance were: Mr. David MacIntyre, Anaconda, Mont.; Mrs. Alex (Janet) MacNaughton, Regina Beach, Sask.; Miss Edith MacIntyre, Los Angeles, Cal.; Mrs. T. L. O'Keefe, and Mrs. C. J. Bancroft, Calgary.

## Toy Collection by Champion I.O.D.E.

Members of the I.O.D.E. at Champion are sponsoring a drive to collect good used children's toys to send unfortunate children overseas for Christmas. The ladies will make a house-to-house canvass in Champion on Tuesday, October 1st, and householders can co-operate and speed up the collection by leaving the toys by their doors. Leaving residents with used toys to donate to the collection may leave them at the Municipal Hall in Champion, in care of Mrs. Gullikson, any time before October 1st.

Any kind of toys will be acceptable and members of the I.O.D.E. are asking the co-operation of all residents of Champion and district in making this drive a success.

E. GILBERT CAYS

Evangelist from Oregon, who will conduct a series of evangelistic meetings in the Church of Christ, Vulcan, from Sept. 29 to Oct. 13. Mr. Cays is in Alberta at the invitation of several of the Churches of Christ.

## Evangelists Will Hold Meetings Church of Christ

Couple From Central Point, Oregon, Here For Series Of Meetings.

The Church of Christ congregation in Vulcan is looking forward to a series of evangelistic meetings to be held commencing next Sunday September 29th, and running through to October 13th. The services are to be led by Mr. and Mrs. E. Gilbert Cays of Central Point Oregon. Special music and singing will be under the direction of the Minister, Mr. W. O. Weale and Mrs. Cays.

These services will not be for the purpose of propagating the doctrines of any religious denomination. They are for one purpose only, that being to present the clear and simple truth respecting the plan of salvation as recorded in the New Testament.

Mr. and Mrs. Cays ministered in the Church of Christ in Central Point, Oregon until recently, when he gave up the comparative security of a regular pastorate for the work of evangelism. So unique was their work that several of the Churches in Alberta invited them to conduct special campaigns in the province.

Mr. and Mrs. Cays have just closed an evangelistic campaign in Hanna, Alberta. The people of Vulcan and district have a rare opportunity of hearing such a talented couple.

## News From CHAMPION

M. G. Clever, accompanied by his sister, Mrs. A. Dils of Monterey Park, Cal., who is his house guest, are motoring through B. C. for two weeks.

Mrs. E. Siler had as her house guests this week Mr. and Mrs. Lester (Slim) Haynes and daughter Jessie of Kahlottus, Wash., and Mr. and Mrs. E. C. Coffman of Edmonton.

Mr. and Mrs. Ward Bulman and son Jerry of Staveland were recent visitors at the home of Mr. and Mrs. W. A. McIntyre.

Mrs. G. M. Taylor of Vancouver, B.C., was a house guest for a few days this week at the home of Mr. and Mrs. C. G. Taylor.

Earl Dawson left on Friday for Edmonton, where he will enter the University of Alberta. He was accompanied by his mother, Mrs. Peter Dawson, who will visit in the capital for a few days.

Frank Kramer is a Calgary visitor, guest of his parents, Mr. and Mrs. A. Kramer.

Mr. and Mrs. Andrew Anderson and daughter Marilyn of Lethbridge were guests of Mr. and Mrs. G. M. Campbell this week.

Mrs. Hayden Spencer and children Maureen and Duane left this week to join Mr. Spencer at Cardston, where they will reside.

Mr. and Mrs. E. Code had as their guests this week Mr. and Mrs. C. L. Fairbanks and sons Jack and Joe of Calgary.

Miss Alice Wolf, telephone agent, has as her house guests for a week her mother, Mrs. J. A. Wolf, and Mrs. P. Druhan of Foremost.

Mrs. A. McDougall was a recent Calgary visitor, guest of her daughter, Miss Morag McDougall.

Mrs. J. Mark was hostess to the Ladies of Leth Chapter, I.O.D.E. last week.

Mr. and Mrs. C. G. Taylor were the recent recipients of a fine 26 pound salmon, caught by their son-in-law, Mr. W. Alsdorf, at Port Alberni, B. C.

Mrs. R. Howe is a patient in the Vulcan hospital, having undergone an emergency appendectomy. Her friends wish her a speedy recovery.

Mrs. O. B. Anderson of Lethbridge was a house guest at the home of Mr. and Mrs. G. M. Campbell this week.

Miss Ethel Griffin and Miss Florence Fowler of the General Hospital Staff, Calgary, were weekend guests of the former's parents, Mr. and Mrs. E. Griffin.

Mr. E. Eslinger accompanied his two children, Vernon and Jean, as far as Calgary, where they entertained for Vancouver to join their mother. Mr. Eslinger will follow at a later date.

Mr. and Mrs. G. Wright of Hawthorne, Cal., have purchased the farm known as the "Wilson Place."

Champion Lodge No. 84, A.F. & A.M., was host to District No. 11 lodges at the annual district meeting, Sept. 17, in the Champion community hall, with over fifty mem-

## CANADIAN CULTURE

Ambassador Jean Desy, ABOVE, who has really outdone himself in his efforts to show Brazilians that Canada is a country of culture. The climax to his five years' effort to promote closer relations between Canada and Brazil reached its peak in Rio de Janeiro when two Canadian art shows were shown and when Sir Ernest MacMillan conducted the Rio Symphony at the Municipal Opera House. Today Brazilians know more about Canada than most countries due to Mr. Desy, himself a French-Canadian.

## Market Road East Of Champion To Be Gravelled

The graveling outfit of the Municipal District of Vulcan is at present engaged in working on the road that cuts straight east from the highway just north of Champion to the canal. A previously completed portion of this road, west of the highway, links up with the Clear Lake M. D. gravelled road which goes west to the hard surfaced highway.

This will add to the growing number of all weather market roads in the municipality. Gravelled roads now lead from Vulcan through Reid Hill to the lake, from Vulcan to Nanton and from Vulcan to Ensign and Brant, utilizing the stretch of gravelled board built by the government to serve the Ensign airport.

## New Appointment For W. W. Butchart

Of interest to Vulcan residents is the announcement that the Edmonton City School Board has appointed W. W. Butchart as architect and building superintendent of Edmonton schools. Starting salary will be \$4,000.

Mr. Butchart is the son of the late W. E. Butchart, former mayor of Vulcan. He received his public and high school education here. A registered architect, Mr. Butchart has for the past eleven years been in charge of the architectural office of the provincial department of public works, Edmonton.

## Party at Champion For Mrs. Campbell

Mrs. R. Bond and Mrs. J. Mark of Champion were joint hostesses last Friday evening at the home of the former, when they entertained at four tables of bridge in honour of Mrs. George M. Campbell, who is leaving shortly. Garden flowers were used as decoration throughout the rooms and a delicious lunch was served by the hostesses.

On behalf of the friends assembled, Mrs. Bond, in her inimitable way, presented the guest of honour with a pair of pictures. Mrs. Campbell very suitably thanked the ladies for their lovely gift.

Out of town guests included Mrs. O. B. Anderson and Mrs. J. D. Henderson of Lethbridge; Mrs. D. Darley, Mrs. D. Paris and Mrs. J. Walker of Nanton.

bers present. A banquet was served at 6 p. m. by the ladies of the Champion O.E.S., also lunch at the conclusion of the evening session Mr. Guy Voisey of Champion was elected district deputy for 1947.

Mr. and Mrs. A. Ulrich were hosts last weekend to Mr. Selland, Mr. J. Scott and Mr. L. Selland, all of Calgary.

Mrs. B. Hummel entertained Monday evening in honour of Mr. D. Farmer and Misses Geraldine and Virginia Farmer, prior to their departure to take up residence in Claresholm.

Mrs. J. Cholack and children of Lomond are guests for a week at

(Continued on Back Page)

## Local Representatives at Reserve Army Recruiting Conference

Training Accommodation is Problem, But Local Unit Expects To Start Recruiting in Month's Time

A conference on reserve army recruiting was held at Currie Barracks, Calgary, last Friday and Saturday, and in attendance from Vulcan were Major C. R. Robson, officer commanding the local detachment of the Calgary Highlanders (Reserve), and Mayor W. D. Allan and D. D. McQueen, representing the Vulcan Citizens' committee.

The conference felt that a general recruiting campaign should be delayed until the federal government had made clear the position of the Reserve Army—why it was needed and what its function would be—and had placed funds at the disposal of the district for a concerted recruiting campaign. It was decided, however, that recruiting could go ahead on a unit basis.

Lack of armories space was a problem in many of the smaller centres and lack of proper training facilities would hinder the success of any recruiting campaign. Equipment was available, but no space for storage or use of the equipment.

### To Recruit This Fall

Latest information regarding Vulcan's future as a training centre for the reserve army is that this is one of the towns definitely slated to receive an armory when building conditions permit. In the meantime it is probable that one of the large Nissen-type huts will be erected here and used as a temporary armory.

Present plans call for a recruiting campaign in this district to start late in October. Objective would be about 88 all ranks, comprising a company headquarters and two platoons.

## Wallace Asked For Resignation

President Truman has asked Henry Wallace, former commerce secretary, to resign, following Mr. Wallace's criticism of U.S. international policy.

Following his resignation Mr. Wallace reiterated: "I am against all types of imperialism and aggression whether they are of Russian, British or American origin. And I must emphasize that the one world concept must be held steadfastly, and that any necessary regionalism must take into account the rights of small nations. We must respect the rights and interests of other peoples as we expect them to respect ours. How we resolve this will determine not whether we live in one world or two worlds, but whether we live at all. I intend to carry on the fight for peace."

President Truman stated earlier that he stands solidly behind State Secretary Byrnes, and forbade any official in future to speak against established U.S. foreign policy. He stated that no change in foreign policy is contemplated. At the Peace Conference in Paris the American delegation had been much concerned over the apparent divergent views of the U.S. cabinet over foreign policy.

MRS. MYRTLE CAYS

Wife of E. Gilbert Cays, who will accompany her husband to Vulcan for evangelistic services. Mrs. Cays is an accomplished pianist, elocutionist and scripture recitalist.

## Big Increase In Number of Ration Bks. Issued

Increase of Over 300 in Ration Books Issued at Vulcan

A considerable increase in the number of ration books issued at Vulcan is shown by figures supplied by Mrs. Mabel Rea of the local Ration Board office. Two years ago, when the last ration book was issued, Vulcan was an airforce training centre, with many airmen's families living in town and at that time 1770 books were issued through the local office. This year, with all air force families gone, a drop, if anything in the number of books issued was expected. Instead an increase of 306 is shown, with 2076 books being issued this month.

Champion, where much the same conditions prevailed, also shows an increase. This month 1017 ration books were issued there, as compared to 973 in 1944. Brant also shows a marked increase.

The number of books issued this month at each point in the district are given below. The figures in brackets indicate the number of books issued at that point in 1944.

Vulcan 2076 (1770); Champion 1017 (973); Brant 355 (271); Milo 455 (458); Lomond 450 (424); Ensign 219 (214); Armada 161 (142); Kirkcaldy 97 (100); Queenstown 246 (229).

## Pretty Wedding at Church of Christ Sunday Afternoon

ATKINS—HAGA

A very pretty wedding was solemnized before a fern and gladioli banked altar at the Church of Christ, Sunday, at 3 o'clock, when Ardel, eldest daughter of Mrs. Rose Haga and the late Mr. A. Haga, Vulcan, was united in marriage to Mr. Maxwell Atkins, Calgary. Rev. E. G. Hansell officiated.

Given in marriage by her eldest brother, Mr. Lawrence Haga, the bride was charming in a gown of white silk corded rep, styled with a sweetheart neck, short puffed sleeves and a full bouffant skirt. She wore lace elbow gloves. A floral coronet held her full length, satin-applique veil in place. She carried an arm bouquet of American beauty roses and her only ornament was a wrist watch, a gift of the groom.

The bride was attended by her sister, Miss Rose Haga, who acted as her bridesmaid. She chose for the occasion a dress of pale pink, triple-sheer, fashioned in bodice effect, with ruffle trim and a full bouffant skirt. She carried a arm bouquet of cerise carnations.

The groom was attended by Mr. Omar Haga, brother of the bride, and the guests were ushered to their seats by Mr. Irvan Haga and Mr. Howard Spaeth.

During the signing of the register Mary Spaeth sweetly sang "One Alone". She was accompanied at the piano by Mrs. Hansell, who also played Lohengrin's Wedding March for the entrance of the bridal party.

A reception for 35 relatives and close friends was held at the home which she wore a corsage of pale of the bride's mother Mrs. Haga, attired in a black ensemble, with which she wore a corsage of pale pink roses, received with the bride party.

A vase of pastel toned gladioli decorated the bride's table, which was centred with a three-tiered wedding cake. A buffet lunch was served by Miss Gladys Mainland and Miss Mary Douglass, who were assisted in similar afternoon gowns of lime green and mauve. Mr. Hansell proposed the toast to the bride, which was responded to by the groom.

For going away the bride changed to a three-quarter length coat suit of black wool with gold nail-head trim and matching accessories.

The young couple left for a wedding trip to Banff, Jasper and Edmonton, and on their return will make their home in Calgary.

Out of town guests to the wedding were: Miss Dorothy Atkins, Miss Marjorie Atkins, Mr. J. P. Atkins and Mr. George Chant all of Cehons; Miss Malois Young and Miss Frances McNeil, Calgary.

### MORE SIGN POSTS

MUCH has been said from time to time on the need for more clearly marked direction signs within the town and on the outskirts. These signs should be well-lettered and placed at a level easily discernible to the motorist. There should be enough of them so that the stranger, coming into town on some mission, could get out again without difficulty and without having to stop here and there to inquire his way.

Favorable comment has been made on road signs at Cardston which are said to give clear direction, and also the distances to main centres to which the roads may lead. This is just another credit mark chalked up in favor of any small town by the passing traveller. And a town might make a remembered name for itself on this one point alone.

It would be a great convenience too if municipal districts took up the matter of road signs for the convenience of incidental travellers. Business matters take many people over the back roads, and the old settlers do not realize how baffled the stranger

can become in following the vague directions given him. Every well used road should carry information as to where it is leading and how many miles to go. All main crossroads should carry some information.

One of the reasons why the district resident is loath to journey round within fifty miles or so of his own home is because of the complete lack of directional signs to small points. He would like to familiarize himself with his own countryside and may daily with the thought of going to Herrington or Muirhead or Kew, or any one of a dozen little neighboring hamlets. But he never does get adventuring round in his own locality because of the fear that he will just grope vaguely round full of a lot of contradictory instructions and never gain his objective at all.

Perhaps road signs are not a "must" in municipal programs of expenditure, but they would be greatly appreciated and would lead to a more thorough acquaintance with one's own countryside.

And that ties up with the naming of farms, or at any rate with clear lettering on mail boxes. Part of the enjoyment of a trip round the countryside is identifying property and owner. Every man whose farm carries his name, either over the gate or in legible mail box lettering, helps to give personality and human interest to the country. It establishes his name and his land in memory, and in its own way is good self-respecting publicity.

This is a tremendous country, providing endless opportunities of going astray, and leaving the impression of very sparse settlement. The towns could provide a warmer contact by welcoming signs at their threshold and more informative signs. The people of the countryside could help in creating the atmosphere of a populated land by giving names and identity to their farms.

## Pertinent Topics

Discussed by H.C.

With Communists crying 'Down with Bevan!' the Hon. Aneurin, whom Mr. Churchill described as a confounded nuisance during the war, must feel stung by the serpent which he fed for years though it did not belong to him nor he to it. It is marvellous what the sobering sense of responsibility will do to one of the wildest of demagogues who ever mounted from a soap box to a seat in the Cabinet.

If squatting should become popular, or even recognized as only a venial offence, justifiable under the circumstances, who is going to build a house if some one else may occupy it before he is ready to move in?

Who in such case is going to appeal to the law if the government refuses to do so when its own premises are illegally preempted? It is not only the owner of the property and therefore the victim but is also the sworn administrator of the law that is being defiantly violated.

There is not much solace from the Lethbridge bye-election except for the Secord and theirs is tempered by the fact that the candidate did not wear the label. The Conservatives get a little out of an increased vote, but the Liberals, C.C.F. and L.P.'s get none. Party men leaving the party do not like to go at once to the other side. They like to sojourn at a half-way house, and Conservatives may hope that these men will go the whole way next time.

Russian delegates voted with their big allies against a Jugoslav proposal the other day. That shows they are not afraid of their satellites.

Soviet zeal for democracy is indicated by the prosecution of officials accused of running their farms in an undemocratic manner. This may yet be followed by charges that these or other officials are reactionary. Such zeal will not be lost sight of on the Soviet-Canadian Friendship front.

The steel controller in Canada has a job equally as arduous as that of the park inspector in Jerusalem.

"Will the U.S. get its money back?" is the title of an article on American war loans to Allies. In the two great war repayment of loans made by Britain never gave her any such concern. What gave her most concern was her failure to pay her debts to the United States which entered the wars when about half over and therefore remained a creditor.

Trying to make peace, with Russia out, is doomed to failure, says Molotov. The prospect is drear since trying to make peace with Russia in has been used and found wanting.

Mr. Wallace's solicitude for Russian security shows that he learneth nothing in the past decade or two about the devices of dictators. Germany had no cause to fear encirclement, there was no threat of attack from any quarter, but Hitler and his gang conjured up those fears for their own purpose. Stalin is doing the same now, and has draped about Russia a curtain of vassal states as buffers against dangers that do not exist. If Stalin and Molotov are really scared they are but babies, and timorous babies at that. They are not scared at all but when millions of dupes like Wallace fall for such stuff why should they not use it?

In a like case a British Prime Minister who could not decide whether a certain act of a colleague was actuated by treachery or ineptitude, commented that we guard against the plottings of foes but that human ingenuity cannot protect against the unconscious machinations of stupidity. Mr. Wallace's case was more easily diagnosed. On his part it was not unconscious and not a blunder.

It was Mr. Truman who blundered in his first diagnosis, but it can be said of him that he remained it at last in the only way possible, by demanding his colleague's resignation. Mr. Wallace, in no wise affected by the constraints of patriotism, is now free to become a quelling unhampered by the inhibitions of an oath of office to serve his own country in preference to any other.

## Surplus Alltime Alberta High

C. J. Huckvale, provincial auditor, has given his report on provincial standing for the fiscal year ending March 31, and this shows an overall surplus of over 10 million, the highest ever recorded.

Liquor profits for the year were \$8,125,156 compared with a 5 million estimate.

The gasoline and fuel oil tax yielded \$4,463,196, well ahead of the estimated \$3,500,000 or an increase of \$963,196.

Operations of the Alberta government telephones in the 1945-46 fiscal period shows a surplus of \$669,051 transferred to deficit account. In the previous fiscal year, the surplus was \$29,299.

The over-all surplus for the fiscal year was boosted by \$2,908,983 received from the Dominion under the Dominion-provincial tax suspension agreement. The amount due at March 31 was received at

an earlier date and included in the revenues for the 1945-46 fiscal year.

From automobile and truck licenses, garage and so on, \$3,192,257 was received. This was \$344,507 in excess of estimates. Compared with an estimated \$450,000.

Treasury branch expenditures for the year on income account was \$2,218,192 less than had been estimated.

On capital account net expenditures amounted to \$1,336,561, after allowing for capital receipts of \$1,284,843. For highways and bridges, the sum expended was \$1,606,808.

Net funded and unfunded debt at March 31, amounted to \$146,219,764, a net increase of \$1,5587 over the previous year. The funded debt includes \$26,219,500 of loans from the Dominion government.

The United Church council at Montreal has asked preference for British immigrants.

## To Understand Canadian Wheat Policy

(Wheat Pool Budget)

Farmers of Western Canada should have an understanding of the Canadian wheat policy as outlined by Hon. J. A. MacKinnon, Minister of Trade and Commerce, in the House of Commons on July 30.

This policy is really a five-year plan extending from August 1, 1945, to July 31, 1950. The Canadian Wheat Board is to have complete control of the delivery crop and will pay an initial price of \$1.35 a bushel, basis No. 1 Northern at Fort William and Vancouver. In order to bring the initial price up to the \$1.35 level for deliveries made during the 1945-46 crop year, an additional 10c a bushel will be paid on all grades delivered in that crop year. The government has instructed the Canadian Wheat Board to accept all the wheat that producers wish to deliver in the 1946-47 crop year, but the quota marketing system will continue.

In the crop years 1947-48, 1948-49 and 1949-50, the quantities of wheat deliverable by farmers will be determined by the government, but will not be less than 14 bushels per authorized acre.

The authorized wheat acreage in Western Canada is 18,037,509 acres. It is calculated at 65 per cent of the 27,750,000 acreage actually seeded in 1940. Hence the minimum deliveries in the last three years of the pool will be approximately 252½ million bushels.

Participation certificates will be issued to farmers at the time they deliver their wheat, but payment on these certificates will not be made until after the conclusion of the five-year pool on July 31, 1950.

The domestic price of wheat will be continued at \$1.25 a bushel, with the government assuming carrying costs on the amounts of wheat used domestically. The government will continue to pay a drawback to millers covering the difference between 77% and \$1.25 on wheat used in Canada for human consumption.

Wheat exported to Great Britain will be sold within the terms of the contract. In the sales to non-contract countries, efforts roughly corresponding to those of the principal supplier, now the United States.

The minister also stated that it is the intention of the government to continue the Wheat Board as the marketing agency for coarse grains as well as wheat.

## The Policemen

(Canadian Police Gazette)

If he is neat, he's conceited; if he's careless, he's a bum; if he's pleasant, he's a flirt; if he's brief, he's a grouchy; if he hurries, he overlooks things; if he takes his time, he's lazy; if you get pinched, he had it in for you; if he's energetic, he's trying to make a record; if he's deliberate, he's too slow to catch a cold; if you strike him, he's a coward; if he strikes back, he's a bully; if he outwits you he's a sneak; if you see him first, he's a bonehead; if he makes a good catch, he's lucky; if he misses it, he's a simp; if he gets promoted, he's got pull; and if he doesn't—oh, well, what's the use?

## Wheat Pool Patronage----

The Alberta Wheat Pool desires to advise its members that it intends to carry on for the crop year 1946-47 on a co-operative basis paying a patronage dividend in keeping with the principles under which the Pool was formed. The following notice is published to comply with the provisions of the Income War Tax Act which was amended at the last session of the Parliament so as to tax co-operatives.

"As required by the Income Tax Act, this will advise our members, as referred to in the said Act as amended, that, in accordance with the terms and conditions contained in the said Act as amended, it is our intention to pay a dividend in proportion to the 1947 patronage out of the revenues of the 1947 taxation year or out of such other funds as may be permitted by the said Act, and we hereby hold out the prospects of the payment of a patronage dividend to you accordingly."

#### KILTED KING, GRACIOUS QUEEN

The King and Queen congratulate the officer of the guard on the smartness of the guards' attire upon their arrival at Ballater for the Scottish season.

#### Items From Bob Edwards' Inimitable "Eye Opener"

In the Calgary Eye Opener during 1917 Bob Edwards indulges in prophecy and advice respecting the war. In one issue he sees 1917 as the critical year for Kaiser Bill and for us. He doubts the necessity of sending any more Canadians to England, when that island is already lapping over with huskies from Canada holding down office jobs. Then in December 1918 he gives a glimpse of war's aftermath and a few imaginative resolutions from Canada.

Calgary Eye Opener in 1917  
Stray Comments

In a big war a little nation has almost as much chance as the tra-

ditional cat in hell without claws. The official reply of the Allies to German peace proposals was far too long. A couple of words would have sufficed. Nothin' doin'!

A returned soldier tells us there is nothing more unlike a battle than a picture of one.

A kind lady has sent us a nice Christmas present of a box of cigars with the assurance that she chose them herself. We have decided to forward these cigars to the front but are not sure of the best way to get them over to the German lines.

#### Tact

A doctor in attendance on a wounded Tommy talked on many things, finally getting on the subject of tact. "Now what is your definition of tact?" he asked. "Well,"

was the reply, "If I opened a bathroom door by mistake and there was a lady in the bath I would shut the door quickly and say 'I beg your pardon sir'."

#### 1917 The Critical Year

For us all 1917 is the critical year. There is no immediate prospect of peace. The fight is to be to a finish the same as in the old days of Napoleon and William Pitt. This kind of fight goes round after round till one or the other drops from exhaustion and concedes defeat.

In this case the end is inevitable. Germany is overmatched, certainly she will be exhausted. She will be beaten. Whether the end will be deferred till Kitchener's 3-year limit (August 1918) or until 5 or 10 years, it is inevitable.

It is a pity that Carlyle's prescription for settlement of the Irish question could not be applied to Germany. The cranky old philosopher claimed that the only way to settle that vexatious problem was to submerge Ireland under cool Atlantic water for a couple of hours, thus getting rid of all those who couldn't swim for that length of time.

#### Canadians in England

Personally we must confess that we fail to see the pressing necessity for many more fighting men being sent over from Canada. Nearly 100,000 husky, carefully trained Canadians out of an approximate total of 300,000 are at present employed at clerical work over on the other side on headquarters staffs, record offices, etc. This enormous bunch puttering away at desks is an army in itself and should be released for fighting purposes.

Again the British Isles are swarming with Canadian officers idling away their time and drawing big pay. Their men have been drafted for the front but they have been left behind.

It is not their fault, yet surely the younger of these officers, if they are so damn anxious to do their bit might with perfect propriety return to the ranks and join the battalions from their own class. There are thousands of good Canadian soldiers over in England right now not being employed in any capacity. Let those who are there be put to use before calling for more.

National service at home, however, is an insistent and imperative need at this stage. Mr. Bennett appeals to men not in the army to enrol voluntarily as war workers. There is nothing compulsory or objectionable about it. The sole idea is to make the best use of manpower resources in order to direct labor to high efficiency. Kaiser Bill must be socked hard.

#### Aftermath—Dec. 18, 1918.

The War Council in London at the last meeting gave earnest consideration to the resolution forwarded to them by Lethbridge Rotary with respect to readjustment of the Balkans. They have notified Mayor Hardy that the proposal will be given earnest thought.

The Women's Auxiliary Sewing Circle of Carstairs has received word from the British government that lady delegates to the Peace Conference at Versailles will be acceptable to the Allied Powers provided they are good looking and can carry their liquor without singing and screaming.

Senator Bill Hamer, agent of the Union Government in Canada, will go over to Europe to discuss the cash indemnity that Canada wants from Germany. Bill is to get the usual agent's commission, so an enormous indemnity is assured.

## Details Alberta Bill of Rights Outlined by S.C. Government

Alberta's "Charter of Freedom" sets forth rights of citizens and plan by which such rights may be realized. Constitutional validity must first be established in courts. Based on Social Credit theory.

The Alberta Bill of Rights, which has been prepared for presentation to the courts to test its constitutional validity, is a far-reaching document. It is divided into two parts, part one being a statutory declaration of the rights and responsibilities of Calgary citizens. Part two deals with the methods by which these rights can be realized.

It is set forth that under the Canadian constitution the citizens of each province, through their representatives, are responsible for dealing with property and civil rights. Each legislature has authority to make laws for safeguarding the individual freedom and economic welfare of its citizens. The people of Alberta therefore have constitutional right to demand and obtain the reasonable results that are physically possible in the economic sphere. These results mean an opportunity to attain social and economic security with individual freedom.

The constitutional validity of the Bill of Rights must be established before it is proclaimed law.

### Part 1

Part 1 of the Bill presents a declaration of rights of every citizen of Alberta who is a British subject, resides permanently in Alberta, and has lived in the province continuously for 12 months.

The Bill declared (1) that every citizen not less than 19 years and under 60 years is entitled to opportunity to engage in gainful employment, or if that is not available to social security pension; (2) that every citizen under 10 is entitled to necessities of life, educational and medical benefits; (3) that every citizen reaching 60 years is entitled to retire and receive a pension not less than the social security pension, together with medical benefits; (4) that every disabled citizen is entitled to social security pension and medical benefits.

Social security pension means payment to individuals of claims on goods and services within the limitations of the natural resources of the province and productive capacity of the people, to ensure an annual income of not less than \$600 a year at 1945 price level for every citizen 19 years and over. A married couple would be assured a minimum income of not less than \$1200 at 1945 price level.

Medical benefits implies hospital medical, surgical and dental care without cost to the individual receiving it.

### Regulation of Credit

Part 2 of the Bill of Rights deals with regulation of credit and provides for issuing to credit institutions of Alberta credit certificates authorizing a corresponding amount of credit deposits.

Section 16 authorizes appointment of a Board of Credit commissioners have authority to license all credit institutions and make regulations as to license fees etc.

A Credit Institution is defined as a person, corporation or organization whose main business is dealing in credit by keeping accounts of customers' credit deposits, transferring these from one customer to any other person, exchanging credit deposits for currency, or making credit deposits available to customers. It does not include any person, corporation or organization whose main business is production or distribution of goods, or rendering services not concerned mainly with dealing in credit deposits.

### On Books and Libraries

After two world wars and one world depression citizens of our Canadian prairies, with people everywhere, are searching for a key to peace and happiness. In the present changing world the need is for values that will provide a basis for constructive living. In Western Canada, today, definite trends are evident that the pioneer precept of "making a living" as a principal motive is passing, and there is a growing appreciation of the need of the complementary cultural force of "a way of living."

*Prairie History.* The latest addition to regional prairie history in this transitional movement is a book called "Third Crossing" by Margaret Morton Fahni and her brother William L. Morton, Professor of History, University of Manitoba.

"Third Crossing" is the story of the town of Gladstone and region in Manitoba, and establishes a pattern for all other regional studies of our prairies. It is in succession to the "History of Western Canada 1870-71" by the late Professor Arthur S. Morton, and to the "Birth of Western Canada" (1870-1885) by Dr. G. F. G. Stanley. "Third Crossing" is essential for the bookshelves of our homes and prairie community libraries.

*Library Services.* In Western Canada there is the greatest need for more adequate library services. Demonstration has proved that books of every kind for every need of any age can be provided at reasonable cost by a tax-supported system within a regional area serving twenty-five to forty-thousand people. By book van, by post, by book deposit centres, stimulated and guided by experienced librarians, there can be created a medium to provide the resources to maintain a cultural tradition of "living" for our Western Canadian homesteads.

daughter, has taken up residence in the house recently vacated by Mr. Laverty, at the south-east corner of the golf links. As yet he has no phone but is hoping that one may be installed before long. He has several comrades-in-arms in this district having been with the Calgary Highlanders. He also saw service in Italy with the R.C.A.S.C.

If you have visitors, have been away yourself or know of any other items of interest phone 36 or 118 and let us know, or drop your items of interest in at the Advocate office.

The Advocate gives you the quickest and best service on commercial and social printing. If you need anything that is printed, phone 36 and we will call.

**Travel Will Be Fun Again  
via Canadian Pacific**

Remember how pleasant it used to be to travel on Canadian Pacific ships! Remember the cuisine, the courteous service, the fun of shipboard life...and the ships themselves!

Just now there's a big job to do repairing the wear and tear of wartime years—replacing lost ships...but, when it's done, travel will be fun again—the Canadian Pacific way! Soon a new, two ocean fleet will plow the sea routes of the world...and once again it will be possible to go from Shanghai to Southampton—Canadian Pacific all the way!

**Canadian Pacific**

## In Interest of Land Veterans

(From High River Times)

A Dominion government official who has just been located at High River is Mr. P. Butendyk who is representative under the Veterans' Land Act. He is settlement supervisor and he will act also in an advisory capacity to all veterans on the land. His territory extends from 6 miles north of Calgary to south of Cayley, and from Lomond to the mountains.

There are many matters which come within the scope of his duties. Needs in respect to machinery and livestock, range and type of production, appraisal of land, and all such problems as they affect the individual veteran land settler, are his concern. It is his hope that men within his area will get in touch with him in any of their problems on which they would like advice or consultation.

Mr. Butendyk, with his wife and

# COMPLETE Aeroplanes

AEROPLANES ARE AT: SWIFT CURRENT, WEYBURN, ESTEVAN, VULCAN, MACLEOD, CALGARY, LETHBRIDGE, DAUPHIN, NEENAWA, CARBERRY.

Owing to the shortage of time at our disposal to complete our dismantling program we will sell a limited number of COMPLETE AEROPLANES

People who are familiar with the great amount of value there is in each of these planes have come for several hundred miles distant from their homes to buy one and take it away. Wings are separated at the outside edge of the motors. They are easily towed away with 1/2-ton pick-up. The tires are blown up and it is possible to haul them at 30 to 35 miles an hour.

Write us for further particulars. For prices and how delivery is made, etc. We will soon be at most fields (our own location near the Government airfields, not on the Government Field).

Act quickly before we have completed our sales program of Complete Aeroplane Sales. We will give you sufficient time in which to arrange for delivery.

THIS IS YOUR LAST OPPORTUNITY TO GET ONE OF THESE PLANES AT A BARGAIN, PROBABLY LESS THAN ONE-QUARTER OF ONE PERCENT OF ITS ORIGINAL COST

## Make Your Own Trailer

MAIN WHEELS, TIRES AND TUBES. Hubs bearings and axles which are easily converted to trailers. The tires are in first class condition made of pre-war rubber and the finest rayon silk cords. Each tire rated by the tire manufacturer to carry a load capacity of 2 1/2 tons. Two of these tires carry a plane weighing about 5 tons with six passengers, where the safety of the passengers are at stake and landing at about 100 miles an hour with rarely an accident. They should give you 50,000 miles of good service at tractor speeds carrying three or four tons on the two tires, 100 to 125 bushels of wheat on the two tires. Lots of them are already doing that. Tire manufacturers will continue to make this size, and this size is already available at the Auto Wrecking Co. Ltd., 271 Fort Street, Winnipeg, to purchasers of these planes or the trailers they manufacture with this size of tire. Tire manufacturers are continuing making this size of tire. You need very little else to turn this equipment into a trailer, at most \$20.00 if done at your local blacksmith's, and for much less if you can do it yourself.

## FUSELAGE

Can be used for many purposes, such as making house trailers, sleeping accommodation for harvesters or for use in hunting camps or at resorts. Cabins for snowplanes or vans for sleighs, and for chicken houses, for which farmers have found them successful or keeping bees. They are extremely sturdy yet very light weight. They are waterproof and wind-proof. It is fitted with flexible glass windows with opening in and out hinges. The Plexiglas windows which can be used for forming plastics, cost originally more than \$200.00. Fuselage is electrically wired all over for lighting. The inside measurements are 5 ft. 8 in. to 5 ft. 10 in. in height and 5 1/2 ft. wide.

The great majority of planes were flown in and many of them have very little flying time. We have every reason to believe that the parts and motors in them are all in first class condition. Most of the planes we have are Anson Mark 2, which is the Canadian version using a Jacobs Engine and the Anson Mark 1, English version using a Cheeth motor. The Ansons are large twin-motored planes with large fuselages mounted on 11.00x12 tires.

The following will give you some idea of the valuable items found on the Anson Twin Motor Aeroplanes. Reference to "complete" planes indicates that it is about 95% complete. Not necessarily every bolt, nut, etc., or that the plane is guaranteed. Planes are not permitted to be flown or parts used on licensed aircraft.

TWO MOTORS, complete with the following equipment, including propellers, magneto, distributors, starter, oil cooler, oil cleaner, coil, rotary gear pump, rotary suction pump, hydraulic automatic pump, gas strainer and oil filter, in addition to other equipment. They will have probably 1,000 lbs. of aluminum content, if dismantled. Or they can be converted for use in Snowplanes, Hydroplanes or Standby plants. Gas consumption when used in a Snowplane would be 10c to 12c per mile, and capable of carrying 8 to 10 passengers. Replacement parts for the future would be readily obtainable from the Auto Wrecking Company Ltd., Winnipeg, for many years to come, and at prices lower than what parts for a Ford Model A would be. You really have to see these two motors to realize how neat and clean they are.

GENERATOR, capable of producing 300 watts, or about 12 lamps of 12 CP each, 12 volt. Very suitable for use either as a wind electric or to be driven with stationary engine. The Anson Mark 2 Generator has a 300 watt capacity, same voltage and will light twelve 25 watt lamps. A generator of this type is easily worth \$50.00, as it originally cost to build about \$200.00.

FOUR GAS TANKS, which are made of aluminum, and probably cost more than \$50.00 each, of which there are four, connected with a 4-way selector valve, and are a bargain at \$50.00 for the four. We have sold hundreds of these tanks. They are rust proof and suitable for carrying water or for use as show tanks for many other purposes.

HYDRAULICS in the plane, which probably cost close to \$2,000.00, are all adaptable to industrial and farm use. Many of these have already been adapted successfully. The automatic hydraulic pump, with 1,000 pounds pressure, when used with the hydraulic undercarriage jacks or the hydraulic oleo legs are easily convertible for tractor use for tractors mounted with implements. There are four oleo legs and two undercarriage jacks in each plane. There are also two hydraulic flap jacks. This hydraulic equipment alone is cheap at \$100.00. They make excellent hydraulic 8-ton presses, which can be converted for less than \$100.00. Besides their uses on tractors and oleo legs, they are also suitable for hydraulic floor jacks, hydraulic body jacks, hydraulic spring spreaders and many other hydraulic uses. Our selling price for Oleo legs is \$17.50 each, and there are four of them besides all other hydraulics. You get these when you buy a plane complete.

FLOOD LAMPS, which will throw a very distant light and can be focused for different widths beams. No tractor lamp can compare to the light thrown from these lamps. The lamp can be used for skating rinks, playgrounds, barns, etc. They will take ordinary lamp bulbs of 50 or 100 CP, either 6, 12, 32 or 100 volt, by soldering in any ordinary light socket.

BUCKET SEATS, suitable for lawn use or tractor use, made sturdy, light weight, out of aluminum, and there are other seats as well.

PUMP-OSCILLATING TYPE. This is a wonderful little hand pump with large capacity. Throws a large stream. Can't be beat for boats, pumping out basements transferring gasoline from barrel and many other uses. Where a hand operated pump is required this little pump can't be beat. Probably cost close to \$75 originally.

PUMP-VACUUM TYPE. Small, compact, yet large capacity. Three quarter inch intake and outlet. Can be power driven. Can easily be mounted direct to motor. Ideal for any pumping purposes. Especially ideal for cistern capable of handling fairly large quantity of water. Probably cost \$100 originally. You can't beat this pump and must be seen to be appreciated.

AUTOMATIC HYDRAULIC PUMP, used to operate undercarriages of twin motored aeroplanes, 1000 lbs. pressure. We are given to understand that these will make extra fine pumps where hydraulics and high pressure is required. This pump can be adapted to many uses. We believe this cost originally over \$200.

IN ADDITION TO THE ABOVE ARTICLES MENTIONED, THERE ARE LITERALLY HUNDREDS OF ITEMS such as box seats, heat temperature gauges, tachometer, cylinder head gauges, carburetor temperature gauges, suction gauges, wing and flap gauges, gasoline tank gauges, ignition switches with locks, 4 gang switches, single and double toggle switches, reheat switches, dash lamps, horn, oleo primer system, 4-way and 2-way gas valves and hydraulic selector valves, remote controls, elastic parachute retainers, snaps and straps, quadrant, solenoid switches, oscillating pumps, propellers, hydraulic brake exactors, aerials, flexible and other gas lines, rudder trim cable and hatches and sprockets, steering gears with sprocket and chains, shielded cable, and on the motors there are a host of items not yet mentioned. Many of these items are convertible. The instruments alone are worth thousands of dollars and in many cases convertible to civilian use. Come down to see us for prices on the different aeroplanes or write to Winnipeg. Act quick before we have completed our dismantling program.

PARTS. Auto Wrecking Co. Ltd., 271 Fort Street, Winnipeg, Canada's Largest Used and New Auto Parts House, for nearly thirty years in business at the same location, have acquired a huge stock of spare parts for these planes and will be able to furnish for many years to come, all wearable parts as engine parts, generator repairs, pump repairs—everything wearable, at prices that will be cheaper than what you would be required to pay for Ford A parts.

WE ALSO SELL COMPLETE PLANES WITHOUT MOTORS OR WITHOUT TIRES AND WHEELS

**Aeroplane Savage Co.**  
Telephone 204 350

## Canada's Position In World Domination

Stuart Armour, well known in Canada for work in economic research, has an article in Sept. 7 Financial Post presenting the vulnerable position of Canada in any dream of Communist world domination.

He says it behooves Canadians to visualize economic, political and military situations with which this country may be faced.

Russia in this air age is almost as close a neighbor as United States. Only by downfall of Britain as an imperial power and by destruction of capitalism in U.S.A. can Russia achieve the goal of a world under control of Moscow.

"Withdrawal of Britain from India and Egypt, coupled with her inability to keep Russia out of the Atlantic" he says, "indicates the extent of Russia's progress in reducing British power. The next prize is the overthrow of capitalism in U.S.A."

"Let us imagine ourselves as a Moscow dictatorship intent on the U.S. goal. Already Russian people have been told of a world plot to frustrate plans for a plenitude of consumer goods. At the same time we would look for soft spots in Anglo-Saxon defences. Canada is peculiarly dependent for prosperity on world trade, without inherent unity, and with a small population controlling a vast rich territory. Our situation lends us to economic and political attack, so that probably no shot need be fired to bring about our downfall."

"Canada is enormously dependent on external trade, one of the least self-sufficient countries in the world. We must be exporters and importers on large scale. Great Canadian industries are almost wholly dependent on outside raw materials for continuance. If our export markets were taken away for any length of time our ability to pay for imported things would be greatly curtailed. Russia and her satellites are great producers of cereals, wood products and certain metals, forming the bulk of our exports. If Russia decided to break prices on world markets of the products we sell abroad at a profit, this would eventually bring depression and social turmoil on which Communism flourishes."

"All our social legislation has been an attempt to ensure that never again will our people suffer the hardships of the thirties. But any prolonged depression would make a mockery of our program of social legislation. Such government assistance could not begin to replace profitable exports to assure a reasonable level of national income. We are more vulnerable today to any collapse in world prices than we were in the thirties."

"Russia, controlling enormous natural resources has a most potent economic weapon to use against us if she chooses. With austere levying she can undoubtedly create surpluses to bring us most acute danger. With our floor prices, high cost of production and dependence on imports we are peculiarly at the mercy of any country which can break world prices in our foremost exportable products. Formerly we could depend on Britain. Today Britain is a debtor nation, sorely beset by her own problems."

"Here is a straw in the wind. It was recently announced from London that Russians are meeting the price rise in the U.S.A. by reduction of 30% in the price of their commodities for export. This may be the opening shot in the campaign for markets in which we have hitherto enjoyed preferred position."

"Russia is on the move. The overthrow of capitalism is her declared objective. Canada stands between Russia and the last great citadel of capitalism. Canada is economically very vulnerable."

"Canada stands in great need of becoming alert to the dangers which lie in her path. That she is not yet fully alert to these dangers is obvious."

## Less Food If Strike Goes On

Non-delivery of cream and milk to dairy factories as a result of the farmers' strike, will be reflected in serious production decreases during September, according to the 10th crop report of the season issued recently by Alberta department of agriculture.

"If the condition continues, it is likely to result in the drying off of cows, which will affect production for several months," says the report.

Dealing with dairying, the report says, though favorable conditions exist for milk production, fewer cows are being milked than during the same period for 1945. Alberta shows a decrease of 5.3 per cent for creamery butter and 19.2 per cent for cheddar cheese as compared to decreases of 10.6 per cent and 25.6 per cent, respectively, for the Dominion.

## Thinks Farmer Sitting Pretty

It is only once in a blue moon that a man on the land concedes that he is doing pretty well and has few complaints. But the other day "a well satisfied farmer" had a letter published in the Albertan, in which he thinks there is little justification for the A.F.U. strike. A part of his letter is as follows:

"Why are we farmers striking? What are we striking for, while people in Europe are starving?"

"We are living in clover. If it blows hard, we don't work; if it rains, we don't work. It's the best profession in the world and I'm glad I'm a farmer. In hard times, what happened? The government granted us relief. Now that we are well off, do we give this back? No I heard the government stroked the pen through it all—and we don't owe a nickel. Then again, as I look around me, what wonderful education the farmers have given their kids. Even through our hard times, farmers' sons and daughters are lawyers, dentists, teachers, nurses. How did we afford to give the kids this education in hard times?"

A great objection I have is: Why should farmers have houses in the villages and cities, when our poor boys from overseas cannot even get lodgings. If the farm is good enough to make money, my contentions are we should live there, not have two houses when there is such a shortage now. Every time it rains, we run up the roads to get to our city property. I've been overseas and my heart bleeds to think that we farmers buy another house and move to the city and town every time the wind blows. And the boys who fought for us can go to hell as far as we care."

"Let us wake up, while we are striking, our enemies are getting stronger. Every strike is a victory for our enemies. How are we going to build up Canada on strikes? "Use that thing on your shoulders, and don't forget, we farmers have the freest, most independent calling of all jobs."

## STILL A GOOD CROP

Estimate on Alberta crop prospects, as compiled by the Winnipeg Free Press indicates that this province is taking off the largest wheat crop since 1942, with a probable 157 million bushels. This is almost double last year's 80 million. Prospects for the three prairie provinces are 441 million bushels. Manitoba has one of the best crops in history, and Saskatchewan is averaging 14.9 bushels which is almost up to the long term average of 15 bushels.

Best harvesting progress has been made in Manitoba where the harvest is in its final operations in the other provinces and Saskatchewan's harvest ranges from completed to just underway. The crop is much later in Alberta. Wheat threshing returns show the yield ranging in grade from No. 1 Northern to No. 4 Northern.

Australia intends to bring in 25,000 immigrants in 1947. These are mainly from Britain.

Charles G. Long, prophet of doom of California, says now that the world is to end on October 17.
